Dear All

On behalf of the charity and the trustees of My Name's Doddie Foundation, I would like to thank everyone at Garnock RC very much for your tremendously generous donation of £2,075 raised through our annual club raffle. It is a truly humbling amount and very much appreciated, as is your ongoing support for the work of our Foundation.

The level of support and generosity people have shown me since I shared my diagnosis has been humbling. This has meant a great deal to me and my family, and we are now firmly focussed on what we can do to help fund research and, one day, find a cure for MND. We are now definitely seeing hope on the horizon. We are so pleased to be helping to fund both the recent breakthrough discovery by researchers at Edinburgh University, and the two platform trials starting up across the UK - though, like so much other worthwhile activity, the trials progress has been impacted by the coronavirus lockdown.

Please keep an eye on our website's News section for full details of how we are investing our funds into research and to help those affected by MND. The Trustees have now approved - paid or pledged - over £6m of donations since the Charity was registered at the end of October 2017. A reflection of the support received to-date. The funds raised and gifts given by you and so many others like you will help us achieve our goals. I am determined that together, for all those living with this terrible disease, we *will* make a difference.

Kind Regards

Doddie Weir
